## WRITER'S COMPASS

**Directions:** Label your sections & celebrations on the outside of the circle. Then plug in your projects and habit goals into each section's slice based on what you'd like to work on when. You may also want to plug in major life events to give you a clearer picture of your year. See the next page & sample worksheets for examples and a debrief. Don't be afraid to be creative (draw, doodle, color code)! This is YOUR tool, so use it as best works for you!

**Note:** You may want to complete this with a pencil or post-it notes first, so you can move things around easily. Also, you're going for poetry, not a novel here. Where might you create white space in your year?
